Dodge 1978

B200 3/4 ton

Sportsman Wagon

318 cubic inch, V-8 engine

Automatic transmission

Van has been sitting for several years. Was running when parked. Currently not running as parts were getting replaced, but job was not finished. From what I understand, it needs a fuel pump. Van has 227,022 miles on it. Originally came from Upton. Was in the bad hail storm at the end of August 2020, so the windshield is cracked and the body has some dents. Interior is well-used but usable. All doors work except the second suicide door. Will need to have the ignition re-keyed as the keys were lost. Have the title to the vehicle.

Asking

\$500
